

SFB 958 Gender Equality 2017

Scaffolding of Membranes - Molecular Mechanisms and Cellular Functions
++ career workshop for female researchers ++

Date: 12. – 13.12.2017

First Time Team Leader: A Workshop on Leadership and Self Leadership for Women

Content (selection):

- What makes a good team leader?
- Internal mindset – external effect: Thought and communication patterns and the impression you make on others.
- Team and the process of team development: a team development model, group dynamics and your options for action.
- Effective and productive team meetings
- Gender differences in leadership style. How important is this to you? How can you act increasingly more flexibly and appropriately to the situation?

Professional communication skills:

- “My language – your language”: The “rules of the game”, differences and misunderstandings in communication processes.
- Rapport: A few ways to actively establish a good relationship in conversation
- How to use non-verbal behaviour more effectively
- Personal state management

Your personal action plan
